

Search Pets. Adopt Pets. Save Pets.

**Adopters can find their perfect Petmatch
on [Petango.com](https://www.petango.com), a real time adoptable
pet search site!**

Adopt a Pet, Save a Life.

Each month Petango.com connects your shelter with over a million pet adopters, and since its launch in 2009, has contributed to the adoption of millions of pets.

Petango connects people with dynamic, media-rich profiles of adoptable pets in shelters. Through its full integration with PetPoint, available animals are automatically uploaded to Petango, providing an accurate, real-time live feed of adoptable pets and saving shelters time and resources otherwise spent performing manual uploads.

Petango Petmatch is a unique online service designed to match potential pet owners to adoptable pets based on their personality, lifestyle, and pet preferences. Whether a person is looking for a pet that's active or passive, playful or peaceful, social or stoic, Petmatch will help potential adopters find their perfect pet and encourage them to adopt.
