Pethealth Inc. Acquires HumaneSolution.com

OAKVILLE, ON – January 15, 2015. Pethealth Inc. ("Pethealth" or the "Company") is pleased to announce that it has acquired HumaneSolution.com ("HumaneSolution"), a web-based data management system for clinics operated by animal welfare organizations (AWOs) in the US and Canada which offer spay/neuter and wellness services to the public and other AWOs.

HumaneSolution is the original SaaS solution for the shelter clinic industry, with the first version debuting in 2006. Since the initial launch, the system's creator, Adam O'Neil, has expanded the system's capabilities driven by user feedback and will continue to do so as part of the Pethealth team. Adam recently began the rollout of the fourth version of HumaneSolution to existing and new clients.

"We are thrilled to add HumaneSolution.com to the software solutions we provide to animal welfare organizations, along with our flagship product, the PetPoint Data Management System," said Brad Grucelski, Vice President of Software & Insurance Solutions for Pethealth. "We have witnessed a growing demand for clinic software geared toward the unique services of clinics operated by AWOs – both from our existing PetPoint client base and beyond. Bringing HumaneSolution and Adam into the Pethealth family is a logical extension of our ongoing commitment to our partners in animal welfare and we couldn't be more excited about our future together."

"It's a great honor to be a part of the Pethealth team," said Adam O'Neil. "We'll be able to deliver more value and polish to HumaneSolution than ever before. I look forward to staying engaged with customers and continuing to make HumaneSolution the best spay/neuter and wellness system there is."

About PetPoint
PetPoint, first introduced in 2005, is now licensed by over 2,100 animal welfare organizations in North America and has facilitated the adoption of over 6.6 million pets. As a cloud based application, animal welfare organizations can not only better organize and care for their homeless and abandoned animals, but can also reduce significantly, if not eliminate, their IT-related infrastructure costs. PetPoint is provided free to animal welfare organizations on the basis that these same organizations use the Company's 24PetWatch microchip and gift of insurance programs for all companion animals adopted, adoptable animals are then published on the Petango adoptable search platform. The 24PetWatch microchip program is the most widely used microchip and lost pet recovery service operating in both Canada and the United States.

About Pethealth Inc.
Pethealth, a Fairfax company, is North America's second largest provider of medical insurance for dogs and cats to pet owners, operating in the United States, Canada and the United Kingdom. In addition, the Company is the leading provider of management software to North American animal welfare organizations through its cloud-based application and is the leading provider of pet related database management services to the North American companion animal industry. Pethealth offers a unique range of products and services for veterinarians, shelters and pet owners through a number of wholly owned subsidiaries

using a range of brand names including 24PetWatch, Pet Protect, Petpals Direct, PetPoint, Petango.com and ThePetangoStore.com.

Pethealth is based in Oakville, Ontario. To find out more about Pethealth, visit the website at www.pethealthinc.com.
